

Individual Assignment

Based on the warehouse visit, write a reflection report (1500-2000 words) covering the following areas:

1. Role of the warehouse in the supply chain (DC, production support, market presence, etc)
2. Your understanding of the layout design (zones, aisles, staging areas) and their effectiveness, whether the layout supports efficient material flow
3. Storage strategy (ABC classification, random storage, fixed location, etc.)
4. Current level of space utilization.
5. Describe the efficiency of key operational processes you observed (receiving, putaway, etc)
6. Identify MHE used and the rationales behind their choice.
7. Describe the efficiency of the Information Systems and documentation used.
8. Identify the safety practices used.
9. What are the value-added services provided, and your suggestions for their improvement
10. What are the operational challenges observed, and your suggestions for improvement

Deadline: 20th March 2026
